

## Art Fair PH: What Not To Miss at The Biggest Fair on Philippine Contemporary Art

By: adobo magazine

MANILA, PHILIPPINES — Art Fair Philippines is opening its doors once more for a celebration of the country's dynamic contemporary art scene. From February 21 to 23, the five floors of The Link parking lot in Makati will be transformed into spaces and selections filled up with creative energy, bringing in both local and international galleries to participate in the biggest art fair in the Philippines. This year's addition has got everyone excited, as AFP is injecting Films and Incubator Spaces to the long list of activities for the weekend.

adobo Magazine was lucky enough to see it before the public opening so if you're pressed for time and need to know the booths to visit, here's our #adobopicks for you.

P.S. This year's ArtFairPH/Photos was the best one yet! Our definite favorite.
